

BKO Technical

HIGH PRESSURE SPECIALISTS

Hydroforming Systems

Bellows Hydroformer

Water Actuated Press
Electro-Mechanical Form Actuator
Quick Die Change

Bellows Hydroformer

All Electro-Mechanical Press
Up to 72" Blank Length
Quick Die Change

Typical Hydroformed Parts:

- **Metal Bellows**
- **Plumbing Fixtures**
- **Plumbing Parts**
- **Aerospace Components**
- **RV Components**
- **Automotive Parts**
- **Hard to Form Parts**

-HYDROFORMING

Tubular hydroforming systems are used in the manufacture of hard to form tubular parts. Hydroformed parts weigh less and are stronger due to structural integrity and fewer welds. Eliminating secondary operations and reducing scrap while increasing design flexibility can realize cost savings.

BKO Also Offers Unique Equipment for:

End Forming
Hydroexpansion
Hydrostatic Testing
